Prof. S Murugavel

Name : Prof. S Murugavel

Current Affiliation : Professor of Physics and Astrophysics, University of Delhi : Materials Research Centre, Indian Institute of Science, Bangalore

Post Doc : Université Pierre et Marie Curie- Paris VI, Paris, France.

Research Interests :

• Electrical transport investigations glasses

• Ion-conducting glasses

• Glass-ceramics and electrode materials for lithium-ion batteries

Website : https://du[dot]irins[dot]org/profile/308544

Brief CV

S. Murugavel, specifically Dr. Sevi Murugavel, is an Associate Professor in the Department of Physics and Astrophysics at the University of Delhi, India. He specializes in experimental condensed matter physics and materials science, with a focus on electrical transport, ion-conducting glasses, and lithiumion batteries. He has a strong academic background with degrees from Anna University and the University of Madras, and he has also held postdoctoral and fellowship positions at the Indian Institute of Science and with the Alexander von Humboldt Foundation.
